

# Kid-Friendly Pink Radish Dip

*A recipe from the New Jersey Agricultural Society  
Learning Through Gardening program*

*Radishes are a great vegetable to grow at school. They are a fast-growing example of an edible root. You can plant them in early April and harvest them before school lets out. Kids love to pull them out of the ground.*

*But the spicy radish isn't a kid-friendly veggie. How to prepare your radish crop so your students will eat it? Try this yummy pink radish dip.*

## Ingredients

1 cup finely chopped radishes

1 8-ounce package of cream cheese, room temperature

1 clove garlic, minced

1 tablespoon lemon juice

½ teaspoon salt

½ teaspoon dried dill

Combine all ingredients and chill for four hours. The ingredients are easy to mix by chopping the radishes and garlic in a food processor and then adding the remaining ingredients to the processor.

*Smear on crackers and enjoy!*
