Pumpkin Stand STEM Design Challenge
A lesson from the New Jersey Agricultural Society’s
Learning Through Gardening program

OVERVIEW: Students will work in small groups to design a stand to hold a pumpkin, and then will try their stands to see if they work.

OBJECTIVES: The student will be able to:
• Design a stand for a pumpkin based on criteria provided.
• Compare multiple stand designs and with a group design a stand based on criteria provided.
• Build the stand with a group based on the design selected.
• Evaluate the group's stand based on the criteria provided.

GRADES: K-5

PROCEDURE:
Divide the students into groups of four. For K-2 students, write the criteria on the board or on a large paper. For 3-5 students, distribute the design challenge rubric sheets. Explain and review the criteria with the class and answer questions. Explain and review the challenge rules. Explain and review the time schedule. Tell students that you will be observing their progress and reminding them to stick to the challenge criteria, rules, and time requirements.

MATERIALS:

<table>
<thead>
<tr>
<th>Paper</th>
<th>Straws</th>
<th>K-2: Pumpkin Stand Design Challenge, How Did We Do? sheet for each student</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tape</td>
<td>Glue</td>
<td>3-5 Pumpkin Stand Design Challenge Rubric sheet for each student</td>
</tr>
<tr>
<td>Craft sticks</td>
<td>One small pumpkin or one for each group</td>
<td></td>
</tr>
</tbody>
</table>

Display the pumpkin at the front of the room. If available, every group can have its own pumpkin. Students may look at the pumpkin, but may not touch it or hold it to test the weight.

CRITERIA:
• Your pumpkin stand must be at least 6 inches tall
• Your pumpkin stand must stand freely
• Your pumpkin stand must hold the weight of one pumpkin
CHALLENGE RULES:
- Listen carefully to ideas from everyone on your team. Decide on the best design before you begin to build.
- You may only use the materials provided. You do not have to use all the materials provided.
- You must build your pumpkin stand in the time provided.
- You may use additional tools such as scissors and rulers.

TIME SCHEDULE:
Teacher will set a timer and notify students when to move on to the next step.
- 5 minutes for each student to sketch his/her own design.
- 5 minutes to brainstorm ideas as a group.
- 10 minutes to plan out the design.
- 20 minutes to create the product (the pumpkin stand).
- 10 minutes to reflect. How can we improve the design? What worked well? What did not work well?

NAME________________

PUMPKIN STAND DESIGN CHALLENGE RUBRIC 3-5

Imagine that you want to display a pumpkin for everyone to look at. Today your challenge is to design and build a stand that can hold a pumpkin. You will have only 40 minutes to do this project. When all groups have completed their pumpkin stands, we will test the stands to see if they work.

CRITERIA:
- Your pumpkin stand must be at least 6 inches tall.
- Your pumpkin stand must stand freely.
- Your pumpkin stand must hold the weight of one pumpkin.

CHALLENGE RULES:
- Listen carefully to ideas from everyone on your team. Decide on the best design before you begin to build.
- You may only use the materials provided.
- You must build your pumpkin stand in the time provided.
- You may use additional tools such as scissors and rulers.

To evaluate your pumpkin stand, circle how you met each specification below.

PUMPKIN STAND DESIGN CHALLENGE K-2
How Did We Do?

Our pumpkin stand is at least 6 inches tall.  YES  NO

Our pumpkin stand stands freely.  YES  NO

Our pumpkin stand holds the weight of one pumpkin.  YES  NO

We only used the materials on the table.  YES  NO

We worked together and listened to each other.  YES  NO

We are proud of our pumpkin stand design.  YES  We can do better next time.
