

Websites About Teaching and Learning in the Garden

*From the New Jersey Agricultural Society's
Learning Through Gardening Program*

www.njagsociety.org

The New Jersey Agricultural Society website highlights a lesson plan of the month and includes lessons on basic gardening, and lessons that link the garden with math, language arts, science, social studies, and health and nutrition.

www.agclassroom.org

The National Agriculture in the classroom website contains lists of lesson plans by agricultural subject in its Curriculum Matrix.

www.schoolgardenwizard.org

A wealth of information on school gardening! Check out this site for information on getting started, funding, connecting the garden to learning and much more.

www.rec.rutgers.edu/mastergardeners

Find out about Master Gardeners, what they do, and how they can help with your garden.

www.kidsgardening.com

This site provides advice on getting started, educational support, materials for sale, and fundraising ideas.

aggie-horticulture.tamu.edu/kindergarden/kinder.htm

Great ideas to start a garden or improve student activities in your garden.

www.edibleschoolyard.org

Edible Schoolyard includes agricultural lesson plans subject and by grade level.

www.randolph.k12.nc.us

Nutrition and gardening lessons for grades K-5, including a great set of fruit and vegetable pictures to use for an activity on the parts of a plant that we eat.

www.myamericanfarm.org

Interactive, online agricultural-related games for all elementary ages that educate as they entertain. Also free, downloadable lessons and agricultural activities
